Memorial Preferences

for Stephen Frost, dated March 24, 2012

I would like my wife Debbie Frost to be responsible for arranging my memorial services when I die. My preferences for the disposition of my remains is to be cremated.

I have no special religious concerns regarding my memorial, but would like a service that brings together my immediate family and close work friends.

I have not done any planning for my memorial service, nor have a preferred provider.

Gifting of Personal Items

for Stephen Frost, dated March 24, 2012

Grandma's Brooch - gift to Julie.

You can find it: in the Jewelry box in the attic

Note: This was given to my sister before she died, by our grandmother. It was purchased at the Chicago World's Fair in 1933 and she wore it at our wedding. She wanted it to be carried down to the older women in our family. It's never been appraised.

Grandfather Clock - gift to Jason

You can find it: In the living room

Note: Jason, I know you always loved this clock - I remember when you were 7 and were amazed that it ran without electricity! We bought this from an antique store in Brattleboro in 1979 - two years before you were born.

1963 MGB Convertible - gift to Walter

You can find it: Storage locker 33C at Oakland U-Store

Note: Walter, hopefully you can get this thing to run again someday - the body is in great condition, which is the only reason I hung on to it. But, I don't mind if you decide to sell it.
